Full Stack Developer

A passionate Full Stack Developer with extensive experience in web and mobile development, team leadership, and AI-augmented development workflows — creating impactful software solutions and contributing to innovative projects.

WORK EXPERIENCE

Anchorpoint Financial Limited (Contract via Viseo)

01/2026 – 06/2026

Senior Full Stack Developer

Remote

- Developed and maintained a multi-portal fintech platform for a tokenized money venture backed by Standard Chartered Hong Kong, HKT, and Animoca Brands under HKMA's Stablecoin Issuer Sandbox.
- Built frontend features across multiple portals using Next.js (App Router), TypeScript, shadcn/ui, Radix UI, and Tailwind CSS.
- Delivered full-stack implementations including NestJS backend services, transaction history, approval workflows, and developer documentation.
- Collaborated cross-functionally with backend, QA, and DevOps engineers in an agile environment.

Posteridy AI

12/2025 – 03/2026

Full Stack / AI Engineer

Remote

- Built a production AI business-credit coaching platform end to end, with a NestJS API and Next.js frontend, live at posteridy.ai.
- Implemented retrieval-augmented generation (RAG) over a curated knowledge base using PostgreSQL with pgvector and OpenAI embeddings.
- Integrated Stripe subscription billing with webhook-driven provisioning, plus admin tooling for knowledge-base curation.
- Deployed Dockerized services to AWS (ECS, RDS, CloudFront) with CI/CD via GitHub Actions.

Bermwood Technologies

06/2025 – 11/2025

Senior Software Developer

Remote

- Worked as independent contract Senior Software Developer focusing on frontend development with Next.js, MUI, and Google Maps integrations for real estate property technologies.
- Collaborated with .NET backend developers and peers to deliver comprehensive real estate software solutions.
- Implemented real estate-specific features including property listings, map-based search, and data visualization components.
- Returned on a short follow-on contract (Apr – Jun 2026) to extend the platform with additional features.

Flowroom Platform

04/2025 – 07/2025

Independent Contractor

Remote

- Developed RAG (Retrieval-Augmented Generation) applications with AI integrations using OpenAI and Replicate APIs.
- Implemented intelligent document processing and AI-powered features for enhanced user experiences.
- Collaborated with the team to design and deploy scalable AI solutions.

Malogica Solutions

01/2023 – 03/2025

Senior Frontend Developer

Remote

- Led a frontend team of 2 developers for an HPC cloud platform, delivering high-quality components using Angular, TypeScript, Cypress, and Vue.

- Collaborated with an agile team (2 backend developers, 1 QA engineer, 1 solutions architect) to integrate frontend with backend APIs.
- Ensured quality standards through coordination with QA and alignment with project goals under the solutions architect.

Upwork

10/2024 – 01/2025

Freelance Web and Mobile Developer

Remote

- Delivered web and mobile solutions for startups using MEAN Stack, React, Ionic, Angular, Firebase, and GCP.
- Managed multiple contractual projects with a focus on scalable and user-friendly software.

Logmaster Australia

06/2024 – 09/2024

Mobile Developer

Remote

- Developed a mobile app using Ionic, Angular, Firebase, and GCP as a contractor.
- Collaborated with a team to design and implement viable software modules.

Direct Sourcing Solutions Inc.

02/2022 – 05/2024

Senior Software Engineer

Philippines

- Built a SaaS platform using Angular, Node.js, PostgreSQL, and AWS microservices.
- Focused on full-stack development and collaborated with a team to deliver robust software solutions.

Author-it Software Company

02/2022 – 05/2024

Software Engineer

New Zealand (Offshore)

- Contributed to a SaaS project using Angular, Node.js, PostgreSQL, and AWS microservices.
- Worked on full-stack development and microservices architecture in a remote team setting.

CodingChiefs

01/2021 – 02/2022

Lead Developer

Philippines

- Led web and mobile development projects using Angular, Ionic, and other frontend frameworks.
- Oversaw the delivery of high-quality software solutions for clients.

Freelance

07/2016 – 12/2020

Freelance Software Developer

Remote

- Developed web, mobile, and desktop applications using a JavaScript single-codebase approach.
- Delivered versatile, cross-platform solutions for diverse clients.

Droptek

10/2017 – 07/2019

Mobile & Front-End Web Developer

Philippines

- Built mobile and web applications using Ionic, Angular, React Native, and React.js.
- Focused on creating responsive and efficient frontend solutions.

EDUCATION

Bachelors in Computer Engineering

06/2010 – 04/2016

University of San Carlos

Cebu, Philippines

- Working scholar while pursuing a BS in Computer Engineering.

SKILLS

Frontend: Next.js (App Router), React, Angular, Vue, TypeScript, Tailwind CSS, shadcn/ui, Radix UI, Material-UI (MUI), Ionic, React Native

Backend: Node.js, NestJS, MEAN Stack, PostgreSQL, Microservices, OpenAPI/Swagger

Cloud & Tools: AWS, GCP, Firebase, Google Maps API, Cypress

AI & Integration: AI-Assisted Development, OpenAI, Replicate, RAG Applications

Other: Agile Methodologies, Team Leadership, .NET Integration
